Sample sentence: **Plants may then release less water vapor to the ambient air.**

7. **Mimic** -to imitate or copy in action, speech, etc., often playfully or derisively.

Sample sentence: **He says she will often mimic the questions to friends at school.**

Let's read

Electronic cigarette looks like a real one, it has the same taste and it is far less harmful than a real one. Its use is growing in Germany.

The so-called e-cigarette is an artificial plastic cigarette that looks like a toy or a joke item. It consists of three parts: a small battery, a tube in which is the liquid and electronic dispensers.

Where the real cigarette has embers, when you take a smoke with an e-cigarette a small LED shines because there is no smoke. Each time the liquid evaporates. When smoking, small clouds are coming out of the mouth, as with the real cigarettes, but you do not feel the smoke, because there is no smoke but there is vapor instead.

It does not burn harmful tobacco, but it evaporates liquid consisting of water, propylene glycol, nicotine concentrates of different strengths. In order to achieve smoker's enjoyment as realistic as possible, this liquid is enriched with a variety of flavors that mimic the distinctive taste of tobacco. If desired, in the fluid can be added other flavors such as peppermint, vanilla or chocolate.

Discussion A

1. If you were to choose between E-cigarettes and the real one, which one would you choose and why?
2. What are some health problems that smoking can cause?

Discussion B

1. Have you, your family or friends ever tried to quit smoking?
2. What is the best way to quit?
